

5/23/2025

Dear Savvy Lab Solutions Member,

This message is to introduce Kulzer Refining as our Exclusive Refining Services vendor to send all your precious metal scrap.

1. Collect all precious metals, partials, inlays, crowns, bridges, grindings, and sweeps that are in the lab.
2. Place the scrap in the container you have received from Kulzer Refining. Or in a box you have.
3. Fill out the acknowledgement form that is supplied inside the box - very important to be filled out with "Savvy" written on the Salesperson line on the acknowledgment form.
4. Place the scrap in the container with the acknowledgment form and keep a copy of the form for your records.
5. Seal the container and put on the pre-paid, pre-printed, insured UPS 2nd day label. When Kulzer Refining receives it, they will send a letter confirming receipt.
6. Call UPS for pickup or give to the UPS driver if he comes into the office every day.
7. When the dollar amount is determined after processing (7- 10 working days), a check will be sent to you with an assay report for all precious metal recovered.

A Kulzer Representative will be visiting you soon. If you have any questions, please call or send an email to Tony Circelli (914) 906-1843 or tony.circelli@kulzer-dental.com

****Every Savvy Dental Member will receive an extra 3% added to the dollar total.****

Sincerely,

Vicki Thomas
